Allowable Subject Matter

1. Claims 1-19 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The prior art taken singly or in combination does not teach or suggest, an image processing apparatus, among other things, comprising writing the first image data group in the display buffer memory *without intervening with any other memory area or buffer memory*, and *outputting the (increased) data amount (of the second image data group) to the display buffer memory*.

The closest prior art, the combined Beyers-Knox reference teaches retrieving background image and OSD image and processing the images separately, Knox teach increasing the data amount of the second image (i.e. the OSD data). However, reference fails to teach the above mentioned features.

Conclusion

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
